

## WATER RESOURCES ENGINEER

status: full-time, salaried

*Robin Kirschbaum, Inc. (RKI) is an independent, locally-owned firm in Seattle, WA. We bring over 20 years of consulting experience and offer diverse project assignments, leadership opportunities, and professionally challenging work in a highly collaborative environment. We're growing and we have an opening to add a full-time water resources engineer in our Seattle office.*

### HERE'S WHAT YOU'LL BE DOING:

---

- Manage and deliver water resource projects focused on municipal and industrial stormwater management in the Pacific Northwest
- Lead planning and engineering design of stormwater management facilities, drainage designs for multimodal transportation projects, systemwide planning, and asset management
- Assist with marketing to win new work
- Mentor other engineers

### HERE'S WHAT WE'RE LOOKING FOR:

---

- Previous leadership/mentoring experience with a desire to work in a team environment
- Bachelor's or higher degree in Engineering or related field
- 5+ years of related experience, including preparation of plans, specifications and estimates for drainage and water quality projects
- Washington State PE license
- Excellent verbal and written communication skills

#### *Desired Qualities:*

- Passion for water resources work
- Enthusiasm to be part of a small start-up
- Previous and ongoing successful Seattle-area client relationships

### COMPENSATION:

---

We offer a competitive annual salary determined by industry standards and level of experience, plus medical/Rx, dental, long-term disability, holidays, paid time off, and retirement benefits.

### HOW TO APPLY:

---

Please submit your resume and cover letter through the form on the [Team](#) page of our website.

*Position open until filled.*
